

**In the Claims**

1.-13. (canceled)

14. (previously presented) A toy comprising,  
    a plush doll having at least one ferrous portion;  
    a manipulator having a magnet for interacting with said at least one ferrous  
portion of said doll to animate said doll;  
    a stage for receiving said doll on one side thereof and for receiving said  
manipulator on another side thereof, for animating said doll;  
    a backing disposed on said side of said stage that receives said manipulator to  
retain said manipulator on said side of said stage; and  
    at least one accessory to be removably received by said doll, wherein said  
accessory is shoes removably attached to said doll at its feet and wherein said ferrous  
portion is permanently embedded completely within an interior part of-at least one of  
said shoes.

15. – 23. (canceled)

24. (new) The toy of claim 14, wherein said doll is bendable and poseable.

25. (new) The toy of claim 14, wherein said doll is a stuffed plush animal.

26. (new) The toy of claim 25, wherein said stuffed plush animal is a cat.

27. (new) The toy of claim 14, wherein said toy further comprises a second accessory  
to be removably received by said doll.

28. (new) The toy of claim 27, wherein said doll has a hole passing completely through a part thereof for removably receiving said second accessory completely through the hole.
29. (new) The toy of claim 28, wherein said hole passes completely through at least one ear of said doll.
30. (new) The toy of claim 14, further comprising multiplicity of accessories related to a common theme.
31. (new) The toy of claim 14, wherein said stage is a box for storing said doll and said manipulator.
32. (new) The toy of claim 14, wherein said stage is a box for storing said doll, said manipulator, and said at least one accessory.
